### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the closest prior art of record, namely Akinari and Vaughn et al., fails to teach or suggest a sustained-release composition of an anti-protista substance that maintains an effective sustained-release for 6 months (newly claimed) and including a polymer having a solubility of 1 g or less per 1 l of water as instantly claimed and supported by the specification at page 8. Applicant submitted translation of Table 6 of Akinari which clearly shows no sustained efficacy after 160 days.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
